Produced	Unit Type	Features and Changes
2003	Sliding French Door	3/2003: Unit features 3/4 insulating Low E II tempered glass with Argon, wide bottom rail, stainless steel ball bearing twin roller operating system, dual point mortise style locking system, easy glide roller track. Pultruded fiberglass (Ultrex) exterior available in white or pebble gray, oak sill liner and color matched top hung screen. Available in 5068, 6065, 6068, 6080 (2 panel) sizes. Also 9068 and 9080 (three panel). XO, OX, XOO,OXO, OOX configurations. Non keyed handle available in almond frost, white or solid brass. 10/06/2003: 8-0 widths added. 8065, 8068, 8080 sizes available in OX or XO configurations only.
2004	Sliding French Door	03/01/2004: Standard 6-0 door width changed from 73 opening to 72 opening. Pebble exterior/white interior GBGs available. 11/09/2004: Redesigned leveling block and end cap, interlock, and added a sill filler to support stationary panels on 8-0 doors.
2005	Sliding French Door	01/17/2005: Added Oil Rubbed Bronze and Satin Nickel as standard hardware options.
2006	Sliding French Door	July 2006: SDL offered on all Elevate Series windows and doors. 7/8" wide bars with Ultrex exterior and wood interior. See Product Bulletin 66 for more details. September 2006: Prairie SDL and GBG Lite cuts made available for the Elevate Series windows and doors. See Product Bulletin 70 for more details.
2007	Sliding French Door	March 2007: Bronze exteriors introduced. November 2007: Evergreen exteriors introduced.
2008	Sliding French Door	March 2008: Cashmere exteriors introduced March 17, 2008. June 2008: Keyed handle set standard. PVD finish available on Brass, Satin Nickel, and Oil Rubbed Bronze. July 2008: Cottage SDL lite cuts were introduced. Refer to product bulletin #99.
2009	Sliding French Door	March 2009: IZ3 Door introduced. May 2009: LoE3 366™ glass option introduced.
2010	Sliding French Door	January 2010: Introduced new grille tack and installation tool and added to accessory chapter. 12/20/2010: Introduced 9065 size on a 3 wide door.
2011	Sliding French Door	06/27/2011: Updated Sill Liner profile to W10252.
2012	Sliding French Door	08/27/2012: Introduced Ebony exterior and exterior casing options.
2014	Sliding French Door	04/28/2014: Interior and Exterior Split Finish option became available so customers could choose different colors between exterior and interior handles. All current handle styles were given the name Cambridge. Handles are no longer available in sets. 06/23/2014: Introduced CN 7-0 Heights, CN 7-6 Widths, and OXXO (4 Panel) Configurations. 10/27/2014: Added Northfield hardware handle sets.
2016	Sliding French Door	04/25/2016: Implemented the design of the 4 panel configuration frame, sill, and panels to the 2 and 3 panel configurations. Now offering a high performance option on the 2 and 3 panel configuration. Also added a coastal hardware option to the 4 panel configuration.
2017	Sliding French Door	10/30/2017: Implemented the new design of the Interlock Seal 12/18/2017: Added availability of customer specified divided lite cut configurations for SDL with and with out spacer bar and GBG. To include simulated check rail and allow any color GBG to the exterior only of standard and special sized units.
2018	Sliding French Door	06/25/2018: Implemented 4' panel width for 3 panel configurations and a new screen stop base and continuous head jamb screen track on OXO configurations. 08/27/2018: Updated the Screen Roller Guide Assembly to Screen Roller Guide – V2932. The new Screen Roller Guide can be used on all doors manufactured after 4/25/2016. 10/29/2018: Introduced Designer Black and Clear interior finishes and Matte Black hardware option. Replaced Sill Liner W12077 with V2693, HP/IZ3 W12565 with V2953. All products will use the PVC profile in place of the wood profile. Low E3 ERS glass type was added. 12/17/2018: Introduced textured glass types: Obscure, Reed, Narrow Reed, Rain, Glue Chip and Frost and also colored glass types: Clear, Bronze, Gray and Green.

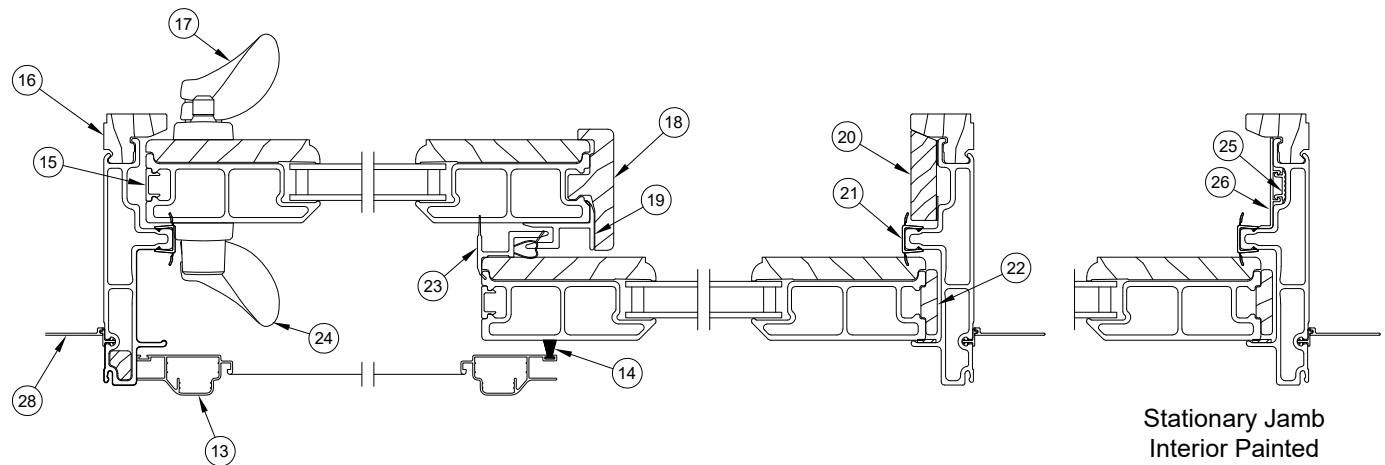

Produced	Unit Type	Features and Changes
2019	Sliding French Door	12/16/2019: Discontinued the sale of Wood Removable Grilles.
2020	Sliding French Door	02/14/2020: The screen handle position was changed to a height dimension of 38" from the bottom of the screen to the center of the handle. 04/27/2020: Added exterior Ultrex capping to the interior and added a wood interior cover to the stationary jamb for Bare and Clear finish options.
2021	Sliding French Door	10/25/2021: Screen mesh changed to Marvin Bright View™, see Product Bulletin 793 for more information. Sliding door interlocks became available as a Configured Part in OMS.
2022	Sliding French Door	02/28/2022: Frame and Sill Weather Strip were made available as a configured part in OMS. See Product Bulletin 821 for more details. 04/21/2022: Part numbers were removed for the vinyl and weather strip profiles now available in Configured Parts in OMS (V1620, V1855/V2624, V2396/V2629, V2529/V2620. Any Discontinued - Limited Availability (LA) will continue to be available by part number. See Product Bulletin 829 for more details. 10/10/2022: Adjustable Panel Rollers were updates. See Product Bulletin 849 for additional information. 10/31/2022: Evergreen exterior discontinued. See Product Bulletin 851 for additional information. 12/05/2022: New header L bracket, adjustable plates and sill strikes on all OXXO sliding doors implemented to reduce panel play. See Product Bulletin 859 for additional information.
2023	Sliding French Door	02/27/2023: Gunmetal introduced. See Product Bulletin 863 for additional information. 08/28/2023: V2341 Roller Track made available as configured parts in OMS. See Product Bulletin 898 for more information.

Ordering Sliding Replacement Screens

Screens are standard with a color matched aluminum surround. Standard mesh is Marvin Bright View™. Determine the outside measurement of the existing screen. Find the sizes that correspond to the width and height indicated on the following chart.

When ordering replacement screen specify:

1. Size; if there is no existing screen from which to obtain the OM of the screen, determine the size of the screen by using the conversion chart below. The daylight opening is the measurement of the visible glass.
2. Configuration
3. Exterior color

NOTE: When ordering single replacement screens for 4 panel units manufactured prior to 4/25/2016, order a new screen roller guide assembly for the opposing screen to avoid color mismatch between assemblies.

NOTE: 02/14/2020: The screen handle position was changed to a height dimension of 38" from the bottom of the screen to the center of the handle.

Screen Sizes for Sliding French Door Manufactured 2003 to 3/1/2004	
Daylight Opening (DLO) to OM of Screen DLO Width + 6 13/16" = OM Width of Screen DLO Height + 10 5/8" = OM Height of Screen

Screen Roller Guide, V2241

Used: 3/1/2004 to 4/24/2016

No longer available, replace with V552

Screen Roller Guide Assembly

Used on XO/OX, XOO/OOX
and OXO configurations only

No longer available, replace with V552

When ordering replacement panels specify:

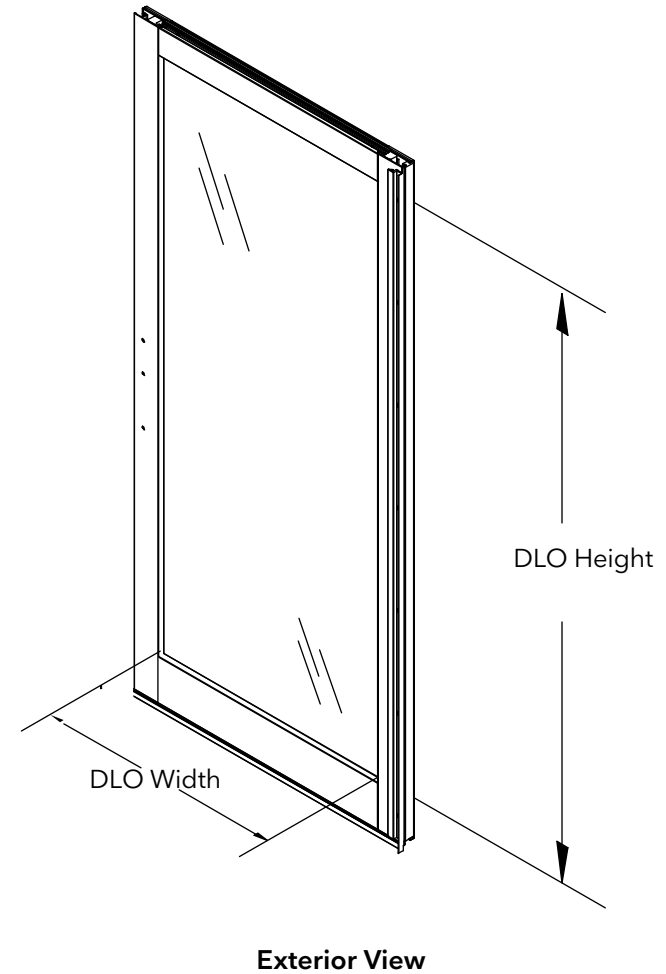

1. Size and configuration;
2. Operator or stationary;
3. Handing;
4. Exterior color;
5. Interior finish;
6. Glazing;
7. Beige or Bronze sill.

NOTE: Operator panels include rollers, lock box, interlock, aluminum and wood fillers. Stationary panels include interlock, stationary panel brackets, aluminum filler, head jamb foam block and wood spacers, 4 panel secondary operator panels include astragal components and flushbolt actuators.

NOTE: When ordering replacement operator panels for OXXO units RO 86 1/2" and shorter and manufactured prior to 4/25/16, be sure to order an additional Stile Wood Filler (W12671) for the other operator panel to avoid aesthetic mismatch between panels.

NOTE: When ordering replacement stationary panels for OXXO units manufactured prior to 4/25/16, color mismatch will exist on the Top Stationary Panel Bracket. Suggestion is to order two bracket covers (PN 10500801) to conceal Top Stationary Panel Brackets.

NOTE: Panel is not reglazable; glass replacement will require a new panel.

ATTENTION: This section contains kits for replacing stationary panel components on units manufactured before 11/09/04. When replacing stationary panels or stationary panel components on doors manufactured before this date, you must replace all components on all stationary panels. These kits can be used in the following ways:

When replacing stationary panels, the panel components are sent with the replacement panel. However, for 3-wide units, you must order an additional kit for the other stationary panel (if you don't replace both panels).

When replacing individual components of the leveling block system (leveling block, end cap, or interlock) choose from the appropriate kit below. 3-wide units will require kits for both stationary panels.

9-0 Leveling Block Kits

Interlock kits include: Leveling block, end cap, interlock, interlock to leveling block gasket, 2" sill filler, interlock foam block, dust block, #8 x 1 1/2" truss head screws, #7 x 1/2" pan head screws, and instructions.

Jamb Side Kits include: Leveling block, 2" sill filler, and leveling block to jamb gasket, and instructions.

Astragal Kits include: Leveling block, end cap, leveling block to jamb gasket, 2" sill filler, #8 x 1 1/2" truss head screws, #7 x 1/2" pan head screws, and instructions.

NOTE: When replacing interlock stationary panels on an OXO door, use one of the 6-0 OX/XO kits from the OX/XO Leveling Block Kits.
