MARVIN ULTIMATE™ MULTI-SLIDE DOOR
Pine, Custom Finish

Many Possibilities. One Marvin.

Marvin doors are designed, engineered, and built to maximize the potential of any opening, frame the perfect view, and enhance every living space. Whatever the project, with Marvin doors, **anything is possible.**

MARVIN ELEVATE®
SWINGING FRENCH DOOR
Custom Finish

Door Terms + Definitions

1

Frame
The door frame includes the head jamb across the top, side jambs, and the sill at the bottom. Marvin® frames are built strong to stand up to heavy door usage year after year.

2

Stiles + Rails
The horizontal wood members of a door are called rails; the vertical components are called stiles. With a traditional French door design, the bottom rail is about 8" high with 4-¾" stiles and top rail. Doors with a more contemporary style often feature more glass with stiles and rails as sleek as 3".

3

Panels
In a door, the panel is the main section, operating or stationary, that is installed into the frame. Marvin doors come in many sizes, some of the industry's largest, but they all share the tight tolerances for fit and quality finishes.

4

Sill
Our door sills are made of Ultrex®, our proprietary pultruded fiberglass that is exceptionally strong and virtually impervious to time, weather, and pressure. Ultrex fiberglass door sills provide excellent performance in hot or cold climates, plus durability over the long haul by being resistant to warping, denting, and fading.

Door Operating Styles

Outswing

Single or double swinging doors open to the exterior.

Inswing

Single or double swinging doors open to the interior.

Sliding

Save space with a door panel that operates by sliding along a track.

Bi-Fold

This door folds open and closed like an accordion and can include up to 16 panels.

Lift and Slide

For openings as large as 48' wide and 12' high, large door panels fully open into pocket or stacked configurations.

Multi-Slide

Another option to blend interior and outdoor living with a modular frame system.

Ultimate Doors

POLYGON WINDOW, LIFT AND SLIDE DOOR
Mahogany

Experience Full Design Flexibility

Our Marvin Ultimate™ product line unites beautiful design with exceptional handcrafted quality. Add character to almost any space with our most extensive selection of shapes, styles, sizes, and options—including wood interiors protected by tough aluminum clad exteriors. With nearly endless possibilities for customization, Ultimate can match your vision and give it room to grow.

Swinging French G2

The Marvin Ultimate™ Swinging French door G2, available in both inswing and outswing, delivers a traditional aesthetic with a 4-¾" stile and top rail and a 4-¾" or 8-1/8" bottom rail. Select sizes up to 14' wide and 10' high to maximize views and access to the outdoors. Choose up to four panels with an Ogee interior glazing profile.

FEATURES

- Select up to four panels, one or two operating panels, and unequal panel widths
- A traditional aesthetic, with 4-¾" stile and top rail, an 8-1/8" bottom rail and optional 4-¾" bottom rail
- Inswing or outswing motion meets design and weather constraints
- Available up to 14' wide and 10' high
- Ogee interior with simulated putty exterior glazing profiles. Optional square interior with simulated putty exterior glazing profiles.
- Adjustable hinges for easy installation and years of smooth operation

Swinging Narrow Profile

The Marvin Ultimate™ Swinging Narrow Profile door, available in both inswing and outswing, is expertly crafted to provide industry-leading performance with narrow sightlines and robust 2-¼" standard panel thickness. Featuring contemporary 3" stiles and rails along with square interior and exterior glazing profiles. Choose from one or two operating panels in configurations up to four panels. Sizes up to 10' high and 14' wide.

- Ogee interior with simulated putty exterior glazing profiles. Optional square interior with simulated putty exterior glazing profiles.
- Robust stainless steel rollers and superior engineering for nearly effortless operation

Sliding Narrow Profile

Marvin Ultimate™ Sliding Narrow Profile doors are created for smooth operation, performance, and amazing durability. Our tough Performance sill withstands traffic and seasonal changes, contributing to both the door's energy efficiency and incredibly smooth operation. The contemporary 3" stiles and rails maximize your view, while the multi-point lock system ensures a tight seal and security from top to bottom.

 - Choose panels that move in one direction or that meet at the center or a corner or panels that stack in full view within the frame or conceal within a wall pocket
 - 22 operating configurations are available
 - Three panel center-stacked configuration also available with an immovable center panel and operating panels on each side

Bi-Fold

The Marvin Ultimate™ Bi-Fold door provides big glass and clean design aesthetics to give homeowners more flexibility and a deep indoor-outdoor connection. Spanning 55' in width, the Ultimate Bi-Fold door is one of the widest panel doors in the industry. Without question, the Bi-Fold door is a simple, elegant solution for adjoining interior spaces or connecting to the outdoors. Available with a wood or clad exterior.

Sizing

Standard and custom-sized doors built to your exact specification.

Design Flexibility

The highest level of design flexibility with the most extensive offering of options.

Coastal + Waterfront

Marvin Ultimate doors are well suited for coastal or waterfront areas with special products and hardware specifically designed for hurricane zones.

* For more options, visit marvin.com
† The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas. PVD has the highest grade corrosion resistant finish.

Modern Doors

MARVIN MODERN MULTI-SLIDE DOOR
Bronze

Stunning in Both Design and Engineering

Create a purely modern aesthetic at an even larger scale with our Marvin Modern™ collection. Made with an innovative High-Density Fiberglass material and designed as a modular system, achieving precise, consistent sightlines for breathtaking views—with exceptional thermal performance—has never been easier.

Multi-Slide

The Marvin Modern™ Multi-Slide door is available in custom sizes and certified up to 12' heights. It can be used on its own or as part of the Modern modular design system. Features multiple moving panels that, when opened, stack or conveniently conceal in the wall pocket.

Hardware Options

Sliding Patio doors feature classic profile durable hardware, a perfect blend of safety and security. Available keyed-alike option (use one key on multiple locks, with up to three different keys on each project).

Choose a distinct interior and exterior handle finish that matches or complements the interior and exterior color of your door.

The Slim Line handle allows a 32" net clear opening when used on a 6' wide, two-panel sliding patio door to meet accessibility needs. It is only available in White, Almond Frost, Matte Black, and Bronze.

HARDWARE OPTIONS

	
Cambridge	Slim Line Exterior

HARDWARE FINISHES

			
Oil Rubbed Bronze*	Brass*	Satin Nickel*	Almond Frost
			
Matte Black	White		

* The Physical Vapor Deposition (PVD) process adds a layer of toughness to hardware exposed to environmental factors like direct sun and humidity. PVD finishes resist fading and discoloration, even in coastal areas. PVD has the highest grade corrosion resistant finish.

MARVIN MODERN™
DIRECT GLAZE WINDOWS,
MULTI-SLIDE DOOR
Bronze

Since 1912, Marvin has been a family-owned and -led company, with a legacy of innovation and commitment to the highest quality. We understand the unique opportunity windows and doors have to improve our spaces and how we feel in them. That's why we never stop pushing what's possible and inventing new solutions to channel fresh air, enhance light quality, and connect with the world around us.
